## VOTE FOR STROTHER.

E. Strother, the Republican nominee for Governor, ought to receive the support of every right-thinking voter in this State. He is a gentleman whose private and political record is without a stain. If elected, as he most certainly will be, the people will have a gentleman at the helm that will administer the affairs of our State Government with dignity, ability and honesty. Mr. Strother has been identified with Nevada and Nevada's interests for twenty years and is thoroughly acquainted with Nevada's needs. He realizes the fact that our present government is too expensive; he recognizes the necessity of curtailing expenses in every branch of our State Government, and will use his influence to bring about a better condition of things. Under Mr. Strother's administration the burden of taxation will be made much lighter. Vote for E. Strother for Governor.

## EDITORIAL NOTES.

What claims has Jewett Adams on the people of this State? To be sure he is one of the "pillows" of the Democracy and has been Lieutenant-Governor for eight years; was one of the brave soldiers who took a hand in the White Pine war; was instrumental in lobbying the library bill through the Legislature, but will he make such a Governor as Nevada wants?

Ex-Governor Leland Stanford has been chosen Regent of the California State University, to fill the place made vacant by the death of B. B. Redding. It is said that he is willing to accept the position, and there is no doubt of his ability to do honor to the post and win credit for himself at the same time. It is a thoroughly good selection.

W. F. Berry, the Democratic nominee for State Senator, declines to run. His reasons are given in a card in today's GAZETTE.

## TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

## EASTERN DISPATCHES.

**A Circus Wrecked—Loss of Life.**  
LANCASTER, Ky., September 23.  
About 3:30 this morning, as the first of three special trains carrying Sells Bros.' show from Richmond was coming around a curve 300 yards from Point Lick, the fourth car from the engine jumped the track and rolled down an embankment, followed by the balance of the train in its rear, consisting of fifteen cars. The cars were loaded principally with the baggage of the company, tableaux wagon, electric light machine and a cage containing a tiger. Several attaches of the circus were scattered along on the train, and the destruction to both life and property was fearful. Three men were instantly killed, three probably fatally wounded and seven or eight more or less injured. Two of the killed were attaches of the circus, and the third was William Underwood, a boy from Mt. Vernon, Ky., who was stealing a ride on the train. The cage containing the tiger burst open and the fierce animal turned out, everyone being afraid to go near the scene until daylight, when the door was opened and the tiger crept back into prison and was secured. The electric light and tableaux wagons were completely destroyed. The track was torn up for over 100 yards and the cars piled up into a confused mass upon each other. The engine with the three front cars escaped uninjured and was immediately dispatched to Lancaster for surgeons and coffins. A force of men was at once put to work, and by 5 o'clock in the evening the track was cleared.

**Destructive Floods in the East.**  
NEW BRUNSWICK, N. J., Sept. 23.  
The lower part of the city is deluged and thousands of dollars worth of property is lost. The rain-fall in 58 hours was over thirteen inches. All the stores and ware houses in lower Burnet street are damaged. The water is up to the counters and goods are all afloat. The people are all in boats on the lower streets, and bridges are thronged with people gazing at the flood.

By the giving way of a bridge over Berry's creek a freight train was precipitated into the stream. Edward Webber, conductor, was killed and the engineer and fireman probably fatally injured.

**PRINCETON, September 23.**  
Bridges are washed away and lumber yards floated off. Mill properties are badly damaged. Road ways are impassable and live stock drowned. Railroad travel is suspended. The canal bridges are wrecked and the canal bank has given away.

**WATERBURY, Conn., Sept. 23.**  
Three inches of rain fell in three hours here on Saturday night. Streets are inundated and cellars flooded. Streets are impassable for teams. Naugatuck river is overflowed. The supports of the iron bridge now in process of construction were washed away and the completed portion fell, causing a loss of \$15,000.

**An Arctic Observation Party Frozen In.**  
WASHINGTON, September 24.  
General Hazen, Chief of the Signal Bureau, has advised that the supply expedition which started in the steamer Neptune from St. Johns, N. F., July 8th, the present year, with additional stores for Lieutenant Greeley's party, returned Saturday to St. Johns, unable to reach Greeley's vessel. They report a solid ice-barrier extending from Cape Inglefield to Ross Bay. Lieutenant Greeley's station is in latitude 81 degrees 40 minutes, while the vessel only reached latitude 79 degrees 20 minutes. The party remained until September 5th, at which date ice formed to the depth of four inches, and to remain longer would be to remain for the winter. The Neptune was enabled to establish depots to secure Greeley's safe retreat should it become necessary a year or two hence. No anxiety for the safety of Greeley's party is entertained. They are amply supplied with stores of all kinds for at least two years. The impossibility of annually reaching this station was foreseen and provided for.

**Coal Mine Fatalities.**  
CUMBERLAND, Md., September 23.  
A heavy fall of coal occurred this morning in the Kingsland mine of the Maryland Coal Co., at Sonomaconing. Four miners, including the mine boss, Byers, are known to be under the coal. The dead body of James Brehaney has been brought up.

**WILKESBARR, Pa., Sept. 23.**  
This morning a cave took place in the Dodson mine of the Plymouth Coal Co., caused by an explosion of fire-damp, instantly killing one of the mine bosses and seriously burning four of the miners. The main track of the Lackawanna road has settled three feet for several hundred yards, caused by the cave, and all trains have stopped running.

**Gould Going on a Jamboree.**  
NEW YORK, September 24.  
The Sun says: Jay Gould is going to leave New York on a two-year's voyage around the world. He is making all the necessary preparations for it. He has been studying John

Russell Young's book, "Around the World with General Grant." He is building, or is going to build, the largest and fastest steam yacht afloat and hopes to be ready for his trip by the Fourth of July next. Whether under such circumstances he is more likely to accumulate stocks than to dispose of those he has got is for the great minds of Wall St. to decide.

## FOREIGN TELEGRAPH.

**Egypt's Troubles.**  
ALEXANDRIA, September 24.  
The Khedive has offered the British Consul-General the grand cross of the order of Osman, the highest decoration he can bestow. The Khedive leaves for Cairo to-morrow. He invited Admiral Seymour to accompany him, but the latter was unable to accept the invitation. A solemn service of thanksgiving for British pacification of the country was held in the Catholic church here to-day. The congregation was very large and included foreign consuls, British military authorities and deputations from a number of regiments. A requiem will be sung to-morrow for the victims of the massacres and for those killed in battle.

## WESTERN TELEGRAMS.

**A Railroad Tax Case.**  
SAN FRANCISCO, September 25.  
In the railroad tax case of San Mateo county against the Southern Pacific Railroad Company, the United States Circuit Court decides that the assessment of the property of the company upon which the taxes in dispute were levied, is invalid on the grounds—first, that in making it no deduction was allowed for mortgages on the property, such deduction being allowed on assessment of property of individuals. Second, that no opportunity was given the company to be heard before the State Board of Equalization respecting the assessment. There must therefore be a new assessment.

**A Gas Explosion.**  
SAN FRANCISCO, September 25.  
An explosion of gas occurred about half past 11 this morning in the basement of No. 1 Montgomery street. The floor was raised, plate-glass windows shattered, the office of D. W. Hitchcock badly wrecked and the tailor shop of Peter Short considerably damaged.

## SCHOOL MATTERS.

**A Reason Why Teachers' Institutes should be Fostered.**  
TO THE SCHOOL TRUSTEES OF WASHOE COUNTY: Dear Sirs:—I have called a Teacher's Institute to be held in Reno, October 23, and fears are entertained by some of the teachers of this county that perhaps there may be a few trustees who will not permit the schools to be closed, nor allow the teachers their salaries during that time, thereby precluding the possibility of their attendance at said institute. If there be any trustees who harbor such a thought, I think they are very ungenerous, and moreover, very unwise. I hope such is not the case. In my opinion there is no true lover of education who would wantonly place an obstacle in the way of advancing and promoting the interest of our educational system, which in our State and county is only in embryo. Such convocations of teachers have been instituted for the purpose of expanding the teacher's knowledge, which must necessarily be benefitting to the children as well. The law provides for the calling of institutes, which it is generally considered obligatory for teachers to attend, and it is a great injustice to the teachers, who want to improve themselves in their profession, to prevent them. In fact, they should be induced and encouraged to attend. They should not be employed without showing proof (which is usually endorsed on their certificates by the County Superintendent) that they had attended teachers' institutes if there were any held in their county. During the teachers' absence from their daily charge the school machinery is not stopped. It is only directed in another course to return again with new impetus to the main channel, to be applied with greater force and effect. In conclusion my desire is, that all teachers will be permitted to attend, and that no deduction will be made from their salaries while in attendance thereon. Yours truly, M. D. BOWEN,  
County Superintendent.

All are invited to call and see the styles and learn prices, whether they wish to purchase or not.

Fire at Camp 16.

Thompson & Stone's shingle mill at Camp 16, near Boca, was destroyed by fire Saturday morning. Loss \$5,000.

The fire is supposed to have been set by sparks from the friction of the water-wheel journals.

### FOREST FIRES.

Carelessness on the Part of Hunters and Campers.

Reno has, for a week or so, been under a cloud. The atmosphere has been smoky and sometimes almost impenetrable to eyesight, caused by fires in the adjacent hills. Most of these fires are the result of carelessness. The larger part of them are set by campers and amateur hunters.

The annual losses from these fires cannot fall much below \$1,000,000. If it were laid as an extra tax upon the inhabitants, they would protest strongly. Yet it is, in some sense, a tax. It is worse, because so much property is destroyed for which no return is made. Taxes are supposed to result in some benefit to the people in the matter of government and protection.

Now, this waste will go on, of say \$1,000,000 a year, until some more stringent measures are taken to prevent forest fires. There has hardly been an instance in this State where damages have been collected of any one setting such fires. The campers and hunters go on their way, not taking the trouble to put out the fires which they have started, and caring, apparently, very little about the damage done. There are millions of acres in the autumn season which are covered with the driest of combustible material, says the San Francisco Bulletin.

A single match cast into the dry leaves will do the business. At this date fires are burning over hundreds of square miles of territory. Besides the more apparent destruction, where these fires run in the woods they kill the undergrowth, and in this way are constantly limiting the area of timber.

Now those who by carelessness or design leave fires burning at camping places, or by reason of stray shots, are just as much incendiaries as those who set fire to dwellings, or carelessly start fires and leave them to consume dwellings. It is difficult in most cases to trace out the responsibility for forest fires. But statutes will not protect property unless they are enforced.

The carelessness and indifference of campers and hunters to the probable destruction of property by great fires is unaccountable. There appears to be but one remedy, and that is to bring home the responsibility in such a way that parties who, by negligence or design, start such fires will feel it in the way of assessments for damages.

Indians on the War-path.

Last night several Indians getting wild with whisky ran a muck on Commercial Row. One well-filled brave on a mustang started after a brother red-skin and ran him into the bar-room of the Pollard House, and was about to ride in when the bar-tender confronted him with a six-shooter. The objection was so positive that the Indian cavalry retired and went whooping down the street. Constable Avery went down below the V. & T. bridge round-house to the Indian camp and searched it for liquor. Finding two full bottles, he smashed them, to the intense disgust of the befuddled warriors. It was reported that one of the Indians was badly cut during the night's fracas. The persons who supply the reds with whisky should be subjected to no simple treatment.

An Unsightly Place.

The owners of the ground on Virginia street between the Odd Fellows' building and Front street, ought to clear away the debris, and the Road Supervisor could improve the looks of the street by clearing up what remains of the sidewalk. Nothing has been done towards fixing up that corner since the fire. Next week the town will be full of strangers and that corner will be an eyesore to every one coming from or going to the Fair grounds.

For State Senator.

Henry L. Fish announces himself a candidate for State Senator. Every voter in this county knows Mr. Fish. He has lived here for nearly twenty years. During that time he has occupied several very important positions in the county government, and has given good satisfaction. If nominated, he will make a strong run; if elected, he will work hard and faithfully for Washoe's interests.

For Commissioner.

T. N. Carey of Wadsworth announces himself a candidate for Commissioner (long term), subject to the decision of the Republican County Convention. Mr. Carey is one of Washoe's oldest and most respected citizens, and would make a good Commissioner. He knows the county's needs, and is competent to fill the office to the satisfaction of all.

A Streak of Luck for Poor Men.

Two men found a prospect in Plumas county a short time ago, and last night the owners of the Plumas Eureka mine offered them \$40,000 for their find, which they will probably accept.

Boots and Shoes.

Tom Barnett left last night for San Francisco to purchase his Fall stock of boots and shoes. He will open one of the best selected stocks ever brought to the State this week.

Not of the Same Mind.

The Wadsworth delegation is split, half the delegation being for Carey for long term Commissioner and the other half for Sawyer for the same position.

### JOTTINGS.

The State Fair opens a week from to-day.

The delegates are talking of caucusing to-morrow evening.

The "Hazel Kirke" troupe passed through to Virginia this morning.

John Hoy has found a coat containing the registration papers of Clarke's station.

The case of James I. Felter & Co. vs. Block & White is occupying Judge King's attention to-day.

Miss May Finlayson has the Gazette's thanks for tickets to the church entertainment this evening.

Autograph and photograph albums at Nash's. Thermometer at 7, 9, 11, 1 and 3—56, 72, 73, 75, 75.

Nearly every railroad in the country contributes cars to make up the freight-trains which go through Reno.

There was a shooting affair at Truckee yesterday. A restaurant man and a saloon keeper fired four shots at each other. Nobody hurt.

F. Meyer is a good judge of cigars and tobacco. He makes a specialty of the business; hence he is able to give his customers the very best article.

Chase & Thyes have received a fresh lot of Apollinaris water direct from the East. If you require any thing stronger than that, call for it.

Patrick Tighe, who shot at Dan O'Keefe, last Wednesday night, waived examination in Justice Young's court to-day, and gave bonds in \$1,000 for his appearance.

Another band of 500 head of cattle will arrive here to-morrow from Ward's ranch at Granite Creek for Louis Dean. They will be pastured at Stevens' place on the river.

If some of the defeated candidates for Democratic nominations had gone to the White House and got nice clothes, they would have been looked upon with more favor by the convention.

A defeated candidate on Saturday growled at the decision of the Democratic convention, and concluded with: "I don't mind getting beat, but to be beat by a d—d Irishman! That's a little too thick."

When a landlord exerts himself to please his patrons he is sure to succeed in business. W. H. L. Knox of the Lake House is doing this, and as a consequence he and his boarders are swimming in contentment.

"A little wine for the stomach's sake" is one of the many good things our old friend Paul got off. Something to cool you when you're warm, or to warm you when you're cold. The Wine House is where they do up such things to perfection. Try it on in moderation. Phil can rectify a rebellious stomach.

Without earnestness no man is ever great or does really great things. He may be the cleverest of men, he may be brilliant, entertaining, popular; but, if he has not earnestness, he will want weight. Now, J. K. Everett is dead in earnest when he says he means to sell better groceries than anybody and at lower prices. Go and see if he don't do it.

The Yellowstone Country.

A. L. Prince and wife, direct from the Yellowstone, are registered at the Golden Eagle. Mr. Prince reports good placer mines there, but on account of the scarcity of water, in consequence of a dry Winter, times are dull there this season. He gives the country credit for having a prospect for a good future, and will return there as soon as a good supply of water can be obtained to work the placer ground he holds.

Death at the Asylum.

Reilly Place, an inmate of the Insane Asylum, died this morning of Bright's disease of the kidneys. He was committed from this county, and has a brother living at Franktown.

### DECLINES THE HONOR.

Hon. W. F. Berry Replies the "Gazette" the Following, Which Explains Itself.

TO THE CHAIRMAN OF THE DEMOCRATIC CENTRAL COMMITTEE: Dear Sir:—The Democratic County Convention thought it wise to place me on the ticket as a candidate to represent this county in the State Senate. While I feel very grateful to the Convention for the high honor conferred upon me I find it impossible to accept the trust. My business is of such a nature that it requires all my attention, and I do not feel able to spare the time it would require to make my canvass and to devote to so important an office. Therefore I most respectfully decline, and in doing so ask that you appoint some one to take my place on the ticket, and will suggest the name of A. A. Longley, recognizing in him a gentleman of ability and the strictest integrity, and knowing the State's interest would be carefully guarded by him.

Yours very respectfully,  
W. F. BERRY.  
Reno, September 25, 1892.

A Promising Mining District.

Parties who arrived yesterday from Santa Fe Mining District, on the line of the Carson & Colorado road, informed a GAZETTE reporter that a number of very promising mines are being opened there.

E. B. Burdick, who was god-father to Tioga District, has cut a vein 55 feet wide, that has four feet of ore worth \$100 to \$400 per ton, upon which work is being done systematically by men of means.

The only drawback is that neither wood nor water is at hand, these having to be hauled from a distance.

Church Entertainment.

Everybody should attend the young folks' concert at the Methodist Church this evening, commencing at 8 o'clock. Those having it in hand would be pleased to see all their friends there.
